

COOL **school fundraisers!**

For years, schools everywhere have turned to fundraising drives to raise money for new equipment, programs and field trips. Magazine subscriptions, pizza kits, candy bars and candles...these are just a few of the things that students have sold over the years to raise money. What if they could sell something that benefits the school but is also educational?

The Detroit Science Center is pleased to present your school with a special opportunity to raise funds by selling discounted Science Center memberships. For every membership sold, the school will receive a portion of the proceeds to use at your discretion.

How does it work? The Science Center will provide your school with exclusive discounted rates on varying levels of Science Center membership. We also will provide all of the sales tools needed to conduct a successful fundraising drive.

A membership to the Science Center provides an entire year of learning and fun with free museum admission, discounts to theater shows, special members-only events and more, making this a desirable and unique fundraising item. Memberships also make great holiday gifts, which can help boost sales going into the holiday season.

**To begin your school's fundraising drive, please email:
fundraisers@sciencedetroit.org.
We look forward to working with your school to create a successful fundraising drive!**

Note: Membership benefits cannot be applied to a group reservation.
